eCAALYX
Enhanced Complete Ambient Assisted Living Experiment

Project funded by the AAL Joint Programme

Objectives:
- Monitor patients with chronic conditions at home and on the move
- Improve the quality of life of elders by increasing their autonomy
- Prevent the deterioration of the patient condition by promoting healthier lifestyles
eCAALYX
Enhanced Complete Ambient Assisted Living Experiment

Technology:

- ISP-oriented remote management of the system
- Integration with the conventional home technology for increased usability, reduced cost
